Project Name	Rising Waters – AI Flood Prediction System
Maximum Marks	4 Marks

Empathy Map

This empathy map helps the team understand the thoughts, feelings, behaviors, and challenges of people living in flood-prone regions. By analyzing the user's perspective, the project aims to design an AI-powered flood prediction system that provides timely alerts, improves disaster preparedness, and supports safer decision-making during flood emergencies.

SAYS •I need timely flood warnings. •My family's safety is my priority. •Reliable weather updates are important.	THINKS •Will flooding affect my home? •Can I trust the warning system? •How can I prepare before the flood arrives?
Flood-Prone Area Resident	
DOES •Monitors weather forecasts. •Follows government alerts. •Prepares emergency supplies.	FEELS •Anxious during heavy rainfall. •Concerned about family safety. •Relieved when early warnings are received.
